

**GRAFIKA WEBSITE HOSTING
& DOMAIN MANAGEMENT:
CORPORATE PLAN**

APRIL 2015

GRAFIKA OFFERS WEBSITE HOSTING SOLUTIONS THAT DELIVER COMPLETE RELIABILITY, COMBINED WITH FAST CONNECTIVITY AND THE REASSURANCE OF READILY AVAILABLE TECHNICAL SUPPORT AND ASSISTANCE.

PROACTIVE UPTIME MONITORING

Our tools regularly check the availability of services on our web server and notify us of any issues. The result is that in the unlikely event of any problems with your website, we will most likely be aware of the issues as soon as you are, if not before.

INTELLIGENT BACKUP

Grafika understands how important your data is to you. That is why we offer a comprehensive backup schedule with all website hosting packages. This schedule includes a full backup of all your website files and data once a week, followed by a daily incremental backup of any changes made since the last full backup. Additionally, a snapshot of your MySQL database is taken each night and stored on a separate server, based in our Bakewell office; this additional backup allows speedy data recovery and checking.

OUT OF HOURS TECHNICAL SUPPORT

During office hours Grafika are always at hand to help you with any problems you may encounter with your website. Technical issues, however, can arise at any time, and that is why we also offer 'Out of Hours' technical support with our Blue Chip hosting package and for a small additional monthly charge with all other packages.
